SUMMARY

Motivated Computer Science Engineering undergraduate specializing in Gaming Technology, with hands-on experience in full-stack web development, AI workflow automation, and process optimization. Proven track record of reducing task delivery times by up to 50% through structured automation and improving platform performance metrics. Adept at applying data-driven analytical thinking, quantitative problem solving, and software design principles to build scalable, user-centric solutions.

EDUCATION

VIT Bhopal University, Bhopal <i>B.Tech Major in Computer Science and Minor in Gaming Technology</i>	Sept 2023 – May 2027 CGPA: 7.6
Xavier's English High School, Jamshedpur <i>Senior Secondary (XII), CBSE</i>	July 2020 – May 2022 Percentage: 70%
Xavier's English High School, Jamshedpur <i>Secondary (X), CBSE</i>	July 2019 – May 2020 Percentage: 64.6%

TECHNICAL SKILLSET

Languages	C++, Python
Full Stack Development	HTML, CSS, JavaScript
Mobile Development	Android Studio
Frameworks & Tools	Git, GitHub, Figma, Canva, Git Bash
Game Development	Unity, Game Design Principles
Soft Skills	Problem Solving, Analytical Thinking, Team Collaboration

EXPERIENCE

AI Product Research & Development Intern ProdigalAI(Remote) - Researched seo, geo, AI search and AI visibility and designed frameworks for website and competitor audits. - Worked on geo optimization including llms.txt, structured data, robots.txt, faq markup and AI-readable business information. - Researched and designed AI product features such as profile bio audit, focusing on user needs, user flow, outcomes, ux and business value.	Jul 2026(Ongoing)
Supply Chain Operations Trainee Flipkart SCOA(Remote) - Underwent structured training on e-commerce warehouse management systems (WMS), logistics pipelines, and supply chain workflows. - Analyzed end-to-end inventory tracking and order processing frameworks within a high-volume fulfillment ecosystem.	Apr 2025 – Apr 2025
AI Image/Video Gen Artist Intern Peblo(Remote) - Developed 100+ AI-generated visual frames with consistent character art and cinematic visual continuity. - Engineered structured prompt libraries and reference workflows, cutting asset iteration times by 30–50%. - Produced complete AI-generated story sequences utilized directly for client concept pitch presentations.	Dec 2025 – Dec 2025

PROJECTS

Gnani RideMate AI Assistant - Built an AI assistant using Natural Language Processing (NLP) to automate ride booking, payment routing and user support. - Designed multi-turn conversational trees with fallback mechanisms, reducing user interaction drop-offs and cutting.
Portfolio Website - Designed and deployed a responsive personal portfolio website using HTML, CSS, and JavaScript. - Developed a responsive personal web platform implementing WCAG accessibility guidelines and UI/UX best practices.
Interactive Mobile Applications Developed two Android applications (TicTacToe and BMI Calculator) featuring intuitive user interfaces and reliable computation logic.

ACHIEVEMENTS

• Gen AI • Web Development
